Please note

The Kill switch's trigger command has not been yet

You will need to set them beforehand

You can do that by right clicking on the  
kill switch button and pressing

**Edit triggers** and Checking who can use the commands

Also the one labeled **"Main deck"** is just a deck switch

you can edit that by clicking and pressing **edit setting**

And selecting the deck that you want it to go must to

**Note:**

you must press it manually each time

The file labeled "Put this is your main LB2 Deck"

Is only a purple button named **"Emote Game"** and

is a deck switch to the emote game and will start  
the Game

DON'T MESS WITH THAT PURPLE BUTTON
